ABOUT ME

Passionate BCA student with hands-on experience building modern web applications using React and core web technologies. Continuously learning and applying new skills while seeking internship opportunities in frontend or full-stack development.

TECHNICAL SKILLS

- Frontend: HTML, CSS, JavaScript, React.js
- Programming: Python, C, C++, Data Structures
- Tools: Git, GitHub, VS Code
- Other: Responsive Design, API Integration

PROJECTS

HeadlineX – React News App (2026)

- Built a responsive news web application using React.
- Integrated News API to fetch and display real-time headlines.
- Implemented category filtering and clean UI design.
- Practiced React hooks, component structure, and state management.

EDUCATION

Bachelor of Computer Applications (BCA) | 2024 – 2027 (Pursuing)

CAREER OBJECTIVE

Seeking internship opportunities to apply and expand my web development skills, contribute to real-world projects, and grow as a professional developer.
